REF: STATE 15722

(SBU) Pol/Econ Counselor spoke with Ababew Feleke, chief of MFA's Directorate of International Organizations, on February 26 regarding the Goldstone Report. Feleke said Ethiopia's position on the vote would be determined by its New York Mission to the United Nations. Given that Ethiopia abstained on the last vote, Ababew's own view was that a further Ethiopian abstention was likely.
